Dear Olive,

Thanks for your letter! It was nice to hear from you.

In your ^{email} message you ask me about Saint Petersburg. Well, it has a lot of beautiful places of interest. If you choose it, you should definitely write about the Hermitage and Peterhof. Actually, Saint Petersburg is extremely popular among foreign and local tourists because its architecture is ~~mesmerize~~ amazing and its history is interesting. Speaking about the best season to visit Saint Petersburg, I am sure that it is summer. That is so because it is the most warm and sunny season.

By the way, you mentioned your trip to the seaside. How long did it last? ~~What was the most exciting part of the trip?~~ ~~It~~ Was it interesting? How many people were there on the trip?

That's all for now. Write back soon!

Best wishes,

Sophie

Speaking **of** or speaking **about**?

1 What are we talking about?

Some discourse markers say what a speaker is going to focus on, and may show a link with previous discussion. Others show subdivisions and changes of topic.

focusing: *talking/speaking of/about; regarding; as regards; as far as . . . is/are concerned; as for*

'I saw Max and Emma today. You know she –' 'Talking of Max, you know he's leaving?'

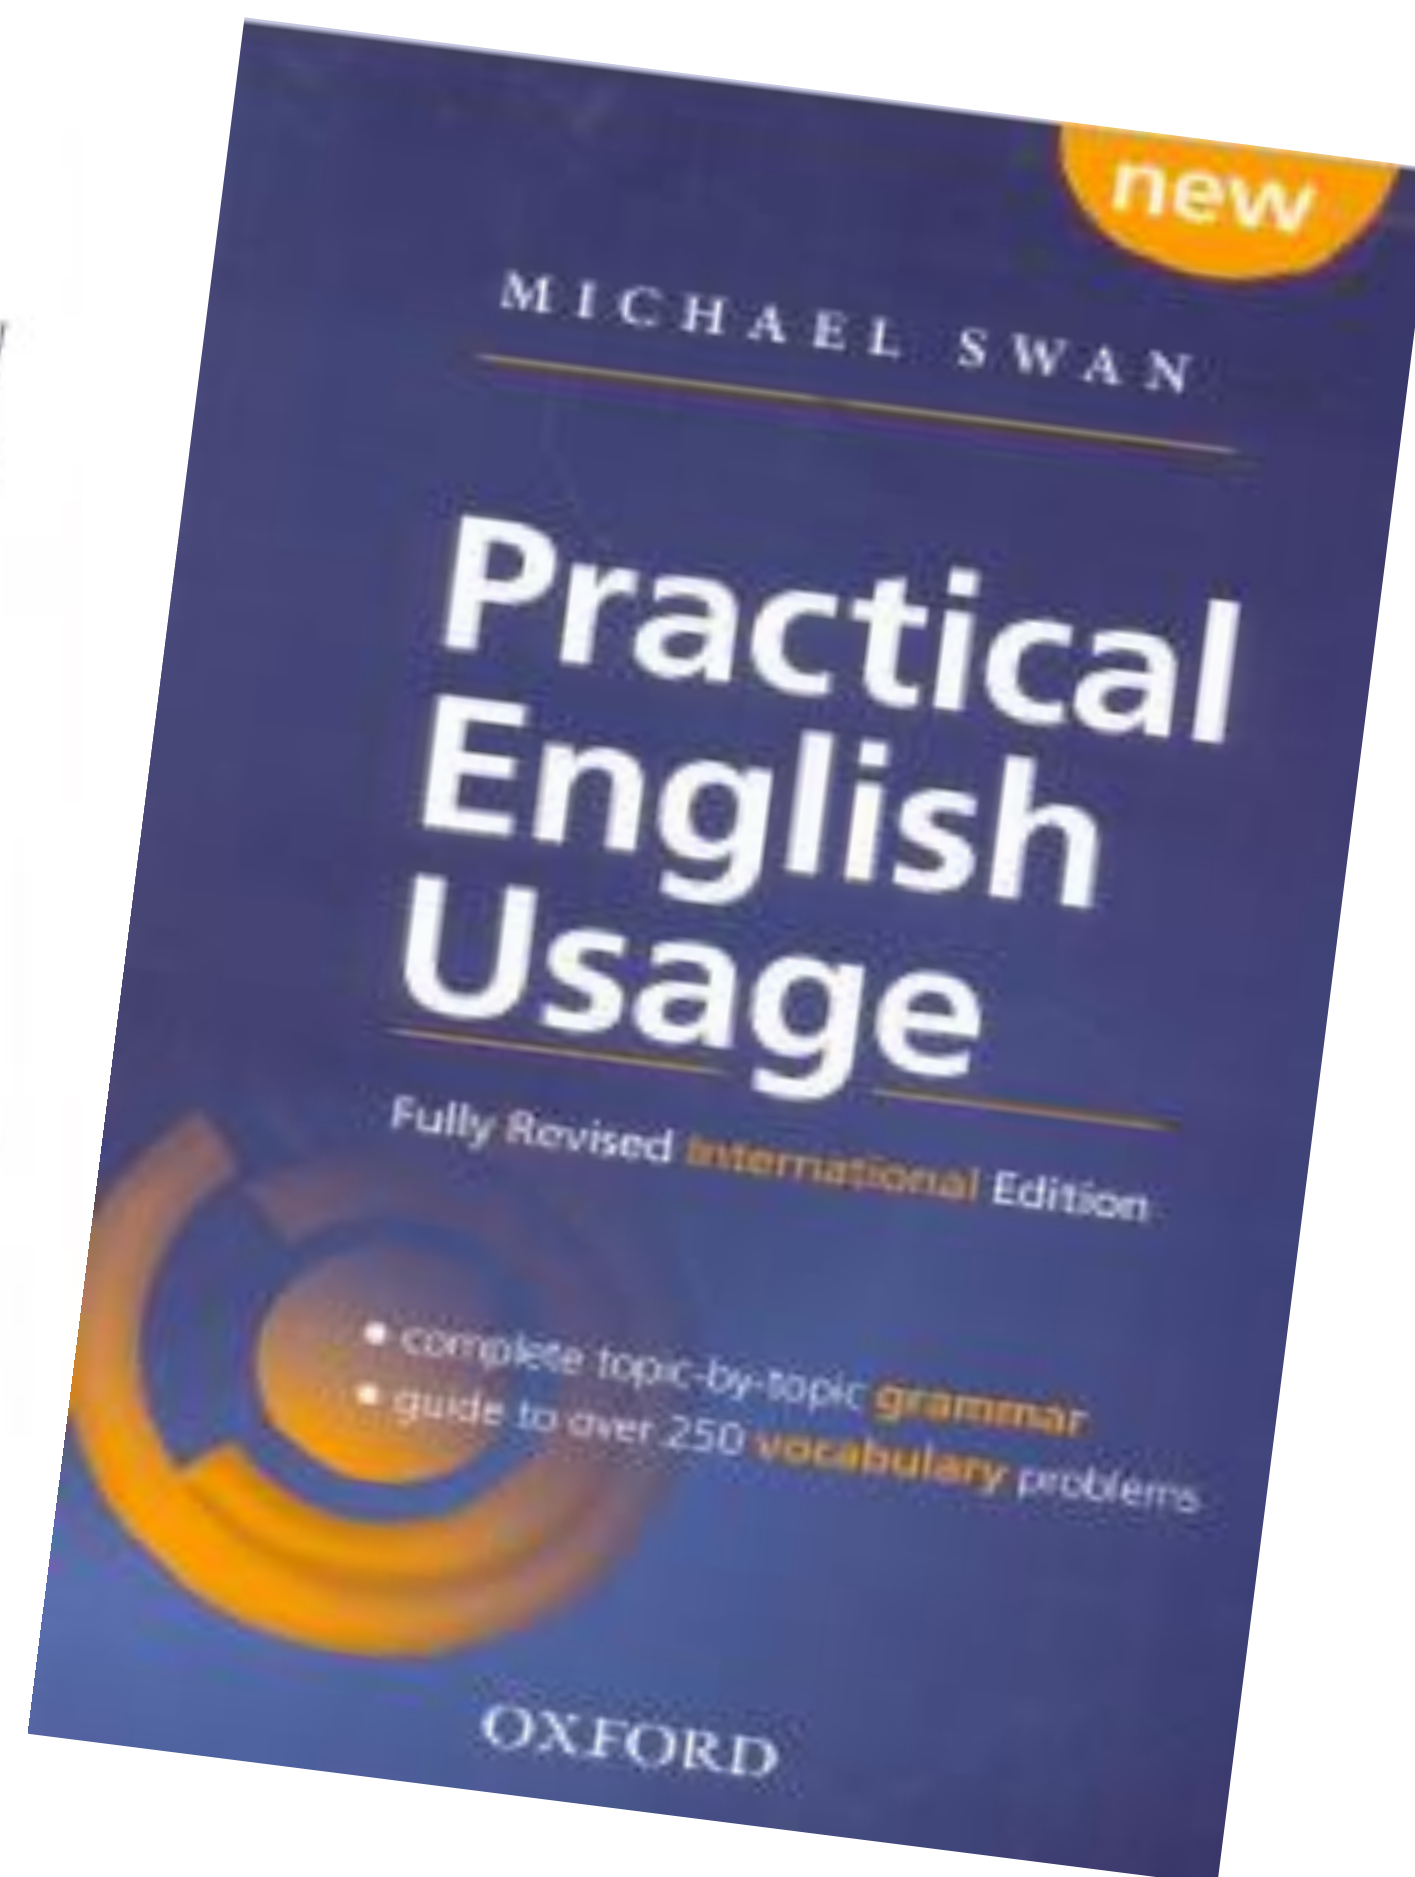

And speaking of Australia, did you see that documentary . . . ?

Regarding that car you were thinking of selling – how much do you want for it?

As far as the kids are concerned, let's ask them what they think.

As for that business of going to the police, I'm sorry I mentioned it.

I've invited Andy and Joseph. As for Joshua, I never want to see him again.

In the letter, he spoke of feeling ill.

“OF” implies a briefer reference to something.
“ABOUT” implies that the subject is the focus of discussion.

На согласование: будем ли считать *speaking about* ошибкой в ответе на задание 37?

Да, это ошибка в средствах связи в случае письменной речи (зад. 37 и 38). Надо: *speaking*

Разница: *Speaking of* = *As for* = *As regards* = связка, применима и в устно, и в письм. речи.

Speaking about = причастный оборот, глагол *speak* в своём прямом значении (*to use the voice*)

I don't know why but golf always give a "old money" vibes and it's feels like something for rich people only. In the future I would like to learn how to play golf, because they seems so unbothered and chill. Also you said what you return from a sports youth camp. What kind of sports you do? How long did you been there? It is free or you pay something, if so how much? That all I wanted to ask you for the moment.
See you soon, bye for now.

38.1 The aim of my project is to assess why some Zetlanders refuse to attend music schools. The topic is very important, as it plays a crucial role in our lives. The results are based on the opinion polls presented in a table that I have found on the Internet.

It is obvious that the table shows some significant trends. Firstly, the most Zetlanders avoid going to music schools because there is no fast result guaranteed (29% to be exact). Secondly, the minority of people from Zetland do not have money for a quality instrument (14% to be precise).

Looking at the table in more detail, a lot more people refuse to attend music school because it is time-consuming rather than not interested in music (23% and 19% respectively). That is because people are focused on their jobs and do not have enough free time. What is more, the number of people who chose no

no fast result as a reason not to attend music school is nearly two times bigger than the number of Zetlanders who chose far from home reason (29% and 15% correspondingly). This is due to the impatient attitude of people, who require maximum output with minimum input.

Having taken everything into consideration, the problem with learning to play a musical instrument can arise. The process of learning is time-consuming and not ~~convenient~~ convenient for most of the people. To solve this problem, the government needs to subsidize music schools so they modernize their online educational platforms. That would attract more learners, because of the convenience of using ~~new~~ technologies for educational purposes.

By contrast, dangling participles are participles or participle phrases that are not placed next to the nouns they modify, causing great confusion, and not a small number of unintentionally humorous grammatical errors. Participles are modifiers just like adjectives, so they must have a noun to modify. A dangling participle is one that is left hanging out in the cold, with no noun to modify. For example:

- Looking around the yard, dandelions sprouted in every corner.

In this sentence, the phrase "Looking around the yard" is placed just before the noun (and subject of the sentence) "dandelions." This makes it seem as if the dandelions are looking around the yard. To correct the problem and give the dangling modifier a noun to modify, the writer might revise the sentence as follows:

- Looking around the yard, I could see that dandelions sprouted in every corner.

As part of my project, I have found a table with some results of the relevant opinion poll and now I want to analyze the information which helps me to give and express my opinion on the subject of the project.

According to this table, "no fast result" (29 %) tops the list of the responses to the question "Why do you refuse to attend a music school?". "No money for a quality instrument" is the least popular reason, having only 14 %.

It is not surprising that the figure for "no fast result" is almost 2 times higher than the figure for "far from home", having 29 % against 15 %. This confirms a widely spread belief that people nowadays do not have enough motivation and they refuse doing any activities if they do not see fast result.

~~However~~ Despite the fact that playing musical instrument has a lot of benefits, it has some problems as well. One of them is that it ~~can be~~ ^{is} very expensive hobby. To solve this problem people can try to find secondhand musical instruments on the Internet and search for free ^{music} courses.

According to the data, the majority of the respondents choose this type of education because it gives the possibility to access class from anywhere (32%). Задание 3 – условный диалог-расспрос. Вариант 1. Работа 1 (2056)

1. *Do you like shopping? Is shopping a popular activity in Russia?*

Well, I would say I like shopping especially when I go to the mall with my friends, but I don't like spending too much money on that. Shopping is quite popular in Russia because we always li... like buying new things. It makes us pretty happy. And also, we use shopping to buy some gifts ... gifts for our friends or family so yes, shopping is quite popular in Russia. 1

2. *Who do you love shopping with? Why?*

As I said, I like shopping with my friends because it's always so fun to go with them. When we buy something for each other we can discuss our preferences and know more about each other. Also, I like going shopping with my parents because they can **talk me out to not buy** some not necessary things. 1

3. *What do you like more: shopping for clothes or shopping for food? Why?*

I'd say I like shopping for food more because food gives you pleasure in the moment and also food can create ... can help you create some **hooked memories**, like when you eat something, when you ate it with friends or **other**, you can remember all the happy memories you had with them. 0

4. *Why do you think online shopping is so popular these days?*

I think online shopping is so popular these days because people don't like going outside very much and it's also much faster because you can just **look through** your phone, find something you need. And also, you can buy something from the places that are so far away. You can buy something that's not even ... not even sold in your country.

1

5. *How do you think people's shopping habits will change in the future?*

I think **they can change not much**, but people will just buy like different clothes or different things. It depends on the fashion ... on the things people ... things they need like technologies. Maybe in the future we can buy more technologies, something for our homes maybe more and maybe even less food. 0 лексико-грамматические ошибки препятствуют пониманию

Task 4. Imagine that you and your friend are doing a school project “Summer holidays”. You have found some photos to illustrate it but for technical reasons you cannot send them now. Leave a voice message to your friend explaining your choice of the photos and sharing some ideas about the project.

In 2.5 minutes be ready to:

- explain the choice of the illustrations for the project by briefly describing them and noting the differences;
- mention the advantages (1–2) of the two types of summer holidays;
- mention the disadvantages (1–2) of the two types of summer holidays;
- express your opinion on the subject of the project – which of these ways of spending summer holidays you preferred as a child and why.

You will speak for not more than 3 minutes (12–15 sentences). You have to talk continuously.

Задание 4. Вариант 1. Работа 2 (2056): РКЗ

So, I've send you two photos^{ФАКТ} of ways of spending summer holidays. The first photo shows working in the garden with your family. There is a girl that's watering plants and her mother is ... is planting them. So, they seem quite happy. On the second photo, there is a holiday on a beach. So, the family is on the beach, right next to the sea, they are playing in the sand. Maybe they are going to swim in the sea. It's also a great one. – (факт. ош. + нет проекта + нет различий)

The advantages of ... of spending your summer holidays in a garden with family is you can ... you can learn how to work in the garden, how to work with plants. Maybe it will help you in the future if you are going to ... to work with other plants, maybe you are going to grow something in your garden, like vegetables or fruits and also you're helping your family. On the second photo there is family is resting in the beach. It's really great that you can have a suntan and suntan is healthy for your skin. Also, it's very fun to play in the beach and swim in the sea. +

The disadvantage of working in a garden is you can get tired so fast because if you are a child, it's a physical work so you get tired very fast. And dis... disadvantage of resting in the beach is that you can get sunburnt, or you can swallow water ... sea water, and it's bad. +

I, personally, prefer going on a beach because it's so much more fun and I don't like working very much, I like resting more. So, I would prefer going on a beach with my family on a summer holiday. – (выбрать надо не куда пойти/что делать, а вид каникул; preferred as a child)

Задание 4. Аспект 1 РКЗ: **вопрос**

ВОПРОС: Наибольшую трудность при проверке задания 4 устной части представляет оценивание аспекта 1 в РКЗ. На какие компоненты стоит разделить данный аспект для более качественной и согласованной проверки?

Аспект 1. Объяснение выбора иллюстраций к проекту (краткое описание фотографий и указание на различия между ними) дано; связь фотографий с темой проекта выявлена.

- Тема проекта (проект выполняется с другом, которому адресовано голосовое сообщение).
- Краткое описание фотографий – несколько обязательных элементов: КТО, ЧТО делает (в форме Present Continuous Tense), ГДЕ – и какие-то дополнительные детали, непосредственно связанные с темой проектной работы.
- Указание на различие ситуаций/процессов/объектов, изображённых на двух фотографиях, причём это различие также должно быть прямо и явно связано с темой проекта и должно выводить на некое обобщение. Если даётся только одно различие в фотографиях, оценка не снижается – важно, чтобы это различие было связано с темой проекта и выявляло противопоставление, лежащее в основе проекта (здоровая пища и нездоровая; командные и одиночные виды спорта и т.д. и т.п.). К различиям надо прийти путём обобщения, понять и ясно сформулировать, в чём, собственно, разница между ВИДАМИ увлечений, ВИДАМИ спорта, ВИДАМИ еды и т.д., изображёнными на фотографиях. Это и есть объяснение выбора фотографий в качестве иллюстраций.

Задание 4. Аспект 1 РКЗ: **вопрос**

ВОПРОС: 2. Аспект 4 задания 4 устной части ЕГЭ должен включать три компонента: эксплицитность, мнение и его обоснование. Как адекватно оценивать данный аспект, если мнение выражено не по теме, но есть эксплицитность и обоснование мнения?

- express your opinion on the subject of the project – which of these ways of spending summer holidays you preferred as a child and why.

I, personally, prefer going on a beach because it's so much more fun and I don't like working very much, I like resting more. So, I would prefer going on a beach with my family on a summer holiday. – **АСПЕКТ НЕ РАСКРЫТ: 2 ошибки. В плане – о предпочтениях в детстве и предложены 2 способа проведения летних каникул. Regarding that car you were thinking of selling – how much do you want for it?

As far as the kids are concerned, let's ask them what they think.

Expressing preference

We use *prefer* to say we like one thing or activity more than another. We can use a prepositional phrase with *to* when we compare two things or actions:

- I **prefer** tea **to** coffee.*
- We **prefer** going by ferry **to** flying.*

We don't use *than* after *prefer*.

- She **prefers** books **to** magazines.*
- Not: ~~*She prefers books than magazines.*~~

We can use a *to*-infinitive or an *-ing* form after *prefer*. A *to*-infinitive is more common.

- She's not keen on coffee. She **prefers** to drink tea. (or She **prefers** drinking tea **to** coffee.)*

During the dry season in the savanna, the only reliable place to find water is at a water hole. Thus, it can be a very busy place. Basically, a water hole is a pool or a depression in the ground in which water can collect. Animals visit a water hole frequently, especially elephants which have to drink about 200 litres of water a day. Oftentimes an animal leaves a water hole dirtier than ever. They try to cover themselves in the mud because it cools them down and it may also help them to get rid of nasty insects that usually infect the animal's skin.

Sometimes (**добавляет the**) larger animals are **accompanied** by small birds to a water hole. These birds hope to find insects on the animal's skin. As well as insect '**control**', such birds may also clean up any wounds the host animal may have. Thus, both host animals and birds are happy. In general, birds can often be seen wading in water holes, looking for fish and frogs.
