Hello, my name is Helen Brown. Only yesterday I was nine and today I'm ten because today is my birthday. And I'm glad that today is Sunday and not Monday or Friday because on Sundays I don't go to school. But my school friends are coming to my birthday party. It's 1 o'clock now and my birthday party begins at 2 o'clock. But my friend Kate will come at 3. She and her parents went to see Kate's grandmother. I already got my present from my parents. It wasn't a dress like last year or a CD player like the one they gave my brother for his birthday. It's a bicycle. I like to ride my bicycle. I also like to read. I know that my school friends will give me books with some of my favourite stories. I like books better than videos or music.

B2 *safe solutions are still needed*

B. International efforts to stop pollution

C. Science for nature protection

D. Set to protect nature.

E. Air pollution in the chain of global destruction.

F. We are all elements of global ecosystem.

. People have lived on our planet for many years. We may live on different continents and in different countries, but we all depend on our planet, on the sun, on animals and plants around us. We must take care of Earth but not destruct wildlife. Many species of animals and birds are disappearing nowadays. We cut down trees to make furniture, but we forget that people can't live without trees and plants. Every little creature or thing on Earth plays its own part and makes our home unique.

2. One of the biggest eco problems is pollution. The main reason of pollution is rubbish. Most of our rubbish goes to big holes in the ground, called 'dumps'. But dumps are very dangerous for our life, because they are full of rats, which can carry infections away from dumps. Another way to get rid of rubbish is to burn it. But the fires make poisons, which go into the air and pollute it. This is the problem scientists should get interested in. Such researchers are worth spending money on.

3. The Royal Society for the prevention of cruelty to animals (the RSPCA) tries to protect animals from bad use. It operates big national campaigns aimed at lost pets and circus animals. The World Wildlife Fund (The WWF) rescued several species of animals mammals as well as birds. These organizations also helped to create more than 250 National parks. Greenpeace began its work 20 years ago from saving whales. And now Greenpeace is a world-famous organization, which saves plants, animals and people.

4. Every year world industry pollutes the atmosphere with about 1000 million tons of dust and harmful substances. Many cities suffer from smog. Vast forests are cut down and burn in fire. Their disappearance upsets the oxygen balance. As a result some rare species of animals, birds, fish and plants disappear forever, a number of lakes and rivers dry up. The pollution of air and the world destruction of the ozone layer is the result of man's careless interaction with nature, a sign of ecological crises.

5. Numerous conferences have been held to discuss questions of ecologically poor regions including the Aral Sea, the South Urals, Kuzbass, Donbass, Seiripalatsinsk and Chernobyl. An international environmental research center has been set up on Lake Baikal. Scientists are also doing much to preserve the environment. But these are only the initial steps that must be carried forward to protect not only for the sake of the present but for the future generations.

B2

A. Special family days

B. The right to choose

C. National spirit traced in different celebrations

D. They invent local holidays

E. Love for celebrations

F. One common event for a national holiday

1. People in every culture celebrate holidays. Although the word «holiday» literally means «holy day,» most American holidays are not religious, but commemorative in nature and origin. As the nation is blessed with rich ethnic heritage, it is possible to trace some of the American holidays to diverse cultural sources and traditions, but all holidays have taken on a distinctively American flavor.

2. Each of the 50 states has the right to observe Federal holidays according to their legislation. However, the majority of the states usually choose the date or day celebrated by the rest of the nation. Still the closing of local government offices and businesses on these holidays vary. For instance, in Washington State there are five official

holidays when people have five days off; however, a company may give their employees three extra days per year to enhance their holiday term.

3. One of the most widely celebrated and popular holidays in the USA is Independence Day. What is rather remarkable about it is the splendid colorful parade. Take, for instance, a parade in Seattle, Washington. Different organizations take part in it. First, usually comes the fire brigades in full dress, with polished fire-engines. Girls throw flowers to them. The firemen and women are regarded as heroes, especially in small towns. Then come the police and other state organizations, fund raisers, voluntary bodies, factories, and small businesses proudly showing off their produce.

4. It is worth mentioning that in the United States, Americans like holidays very much. The word «holiday» for them is synonymous with «celebration». They tend to make some Sundays unique by organizing various festivals and carnivals. On these Sundays you can go to different towns and take part in entertaining events. The main attractions are festivals that welcome in the autumn as the leaves on the trees begin to turn red, orange, and yellow. For example, a festival of wooden boats or classical automobiles, or a wood-chopping contest and an auction are popular activities.

5. As for family celebrations in the USA, it is worth saying that these holidays are mostly calm and quiet. The most popular family holidays are Thanksgiving Day and Christmas. The extended families gather for these two events. Americans prepare only traditional meals for these holidays. For instance, for Thanksgiving Day there will be a roast turkey with cranberry sauce, white mashed potatoes (which ARE indispensable with turkey). Other sweet potatoes or yams, vegetables and a pumpkin pie.
